

The Sweet 16 profile is a powerful, compact uplight/downlight solution. With a single LED strip for downlighting and two for uplighting, Sweet 16 is ideal for applications where high output and low-glare is key, such as boardrooms, reception counters and kitchen islands. Sweet 16 can be wired with two independent, dimmable circuits to achieve the perfect amount of light. Both wire and rod suspension options are available.

MOUNTING OPTIONS		DIFFUSER OPTIONS		SUPER SERIES LED STRIP OPTIONS			
Rod suspended	Opal	Lumens per metre	Watts per metre	Colour temp.	Lumens per metre	Watts per metre	Colour temp.
Wire suspended	Clear	270lm		2700K	2000lm		2700K
Wall mounted		280lm	2.6W	3000K	2000lm	17W	3000K
		300lm		4000K	2130lm		4000K
		470lm		2700K	2190lm		2700K
		600lm	5W	3000K	2340lm	20.3W	3000K
		640lm		4000K	2460lm		4000K
		1250lm		2700K			
		1270lm	11W	3000K			
		1400lm		4000K			

- LED strip options vary depending on region – please consult your local distributor for more information. Other LED strip options are available on request, including IP65 and RGBW colour change.
 - All lumen values refer to the bare LED strip. Losses through diffuser/profile are not represented. Consult photometric data.
 - 5 year manufacturer's warranty on Super Series LED strip.

ACCESSORIES
